PAQUIN CURES DRUNKENNESS FRANKFORT FEARS

An Eminent St. Louis Physician Positively Proves He Can Cure Drunkenness—A Remarkable Test.

after for years by scientisis and physicians. Physicians rightfully claimed that if it is a disease it can be cured, and therefore, went upon the theory that it was a disease and sought to perfect a treatment whereby drunkconers could be cured. Dr. Oznas Paquin, for years a practicing physician in the City of St. Louis ticing physician in the City of St. Louis studied this question from every standpoint. Finally, after many scientific researches. he completed a method which in his own exhibit was a positive cure for this de-spoiler of happy homes. In an interview, Dr. Paquin declared "that drunkenness is

DR. PAQUIN. love and tears down homes to build up insame asylums, poor houses and jails. the sunlight of sobriety and happiness into the Doctor had his method perioded the midst of drunkenness and missey. It After the Doctor had his method perfected to his own satisfaction, be decided to nice it a sewere test; he went to a prominent efficen and told that effice if he would send to his (Dr. Paquin's) office five of the worst drunkards that could be found, he of drunkenness and missery, it to misse to drunkenness and missery, it is the duty of every reader to assist the found of every reader to assist the duty of every reader to assist the duty of every reader to assist the duty of every reader to assist the found of every reader to assist the duty of every reader the every reader that the duty of every reader the every reader that the duty of every reader the every reader that the duty of every re worst drunkards that could be found, he of drunkenness, he should at once send would care them of their disease and return their name to Dr. Paquin, or see that they them sober without any further appealse either visit or place themselves in commufor intexicating drinks. The prominent citi-zen decided to accept the proposition and, suite Hill Chemical Islde., St. Louis. The zen decided to accept the proposition and, suite itta Chemical Bids., St. Louis, The after looking the city over, he finally found teader that does this will certainly be defive cases which he thought would till the ling a Christian act, for no matter how bill. There five cases were all beyond tail- hopeless the case may seem and no matter the age, four were men and one a womant; how many either treatments have been unsuccessfully ried, the method known as the lept, as they had sunk into the deepest pit of drunkenness, three of them were delirious and all were habitual drunkards, at the same time it will place the constitution the odor of drink so observious that

DETAINED AT QUARANTINE.

Steamer Pawnee Arrived With

Smallpox on Board.

New York, March 21.-The British

steamer Pawnee arrived to-day from Med-

iterranean ports, via Bermuda, and was de-

tained at Quarantine, owing to the pres-

tained at Quarantine, owing to the presence on board of three cases of smalinex. John Crawford, third engineer; William McDonald, second engineer, and John Mcbourne, the colored steward. The patients will be sent to Riverside Hospital, and the crew detained until all danger from the discase is past. The Fawnee is one of a large fleet of stoamers employed in the Mediterranean trade.

There is little danger of any further outbreak of the disease. All the rest of the crew on board are well. The Pawnee will probably be released to-morrow afternoon

Prescription No. 2851, by Elmer & Amend, will not cure all complaints, but it will cure rheumatism.

DRAINAGE CONVENTION.

Scheme to Connect the Red and

Mississippi Rivers Discussed.

Fargo, N. D., March 21-A large delega-

tion from along the Red River from Winni-

per to Lake Travers is here to attend the

meeting of the Tristate Drainage Conven-

tion which began to-day. Mayor Johnson is chairman of a committee to arrange for a future big mass meeting at Grand Forks. Each State interested will ask its representatives at Washington to obtain an appropriation of \$1,000,000 for the work of connecting the Red River with the Mississippi.

407 Commercial Bldg., S. E Cor. Clive & 6th | FUNERAL OF GENERAL HARNDEN

Is drunkenness a disease or is it stuply it was almost impossible to stand within a temptation that cannot be resisted by a vast number of the homeo race? The suswer to this question has been sought their chesks and the light of health upon their chesks and the light of happiness in enness is a disease and can be cured. Has method not only removes the desire for drink, but renders alcohol antagonistic to the system; in this latter particular the effect is much the same as is experienced when one is made very sick upon some favorite article of food and ever afterwards that particular dish is rendered repulsive. However, by the Paguin treatment the particular dish is rendered repulsive. tient is not made sole, but, on the con-trary, his health is improved and the pa-tient unconsciously beest all desire for drink, and later linds that the stomach will not tolerate alcohol even in small quanti-ties. From what Dr. Paquin has demon-

strated it can be said without hesitation that the most hopeless case can be cured by this wonderful treatment. Or, Paquin has and hundreds of patients who were relapses rem other treatments, and in every intance he cured these patients, and they aske remained curre for months and years, to all, therefore, be stated that the Paquin restment is a permanent cure and not a elaporary one, for the patient never to-appear to his former condition. We know if no more hammer work being done at present than that which Dr. Paquin doing. The Poeter is comparatively a oung man, taking into consideration the to tell what to size be has already achieved in his chosen to kill Goebel. profession, and to think that this young man has thrust aside the opportunity which was surely his to become the head of the medical profession in his community for the purpose of taking up the work of planting the sunlight of sobriety and happiness into

GENUINE SPRING DAY.

Doctor Hyatt's Prediction for To-Day Is Most Favorable.

Dector Hyatt predicts for to-due the first Strike spring day of the season of 1966. "We have had already," he said yester "a few suggestions of gentle spring a the atmosphere is from his expir-d. Only remnants are left and they be sold out. This this was a flugh that came out of the North-few days ago, chilling the country vescel over, has departed for the a regions and as its waste a low's lowing. Another low's coming up to Southwest and they should must the Southwest and they from the Southwest and they should meet here in the Central Mississippi Valley. The two should give us real warm weather, the kind that fills the ladies' minds with visions of flower-bedecked Easter bonnets and makes all the old stages in their coffee."
Doctor Hysit would not say how long he expected this warm, clear spell to last. "There is no rain in sight now," he said, but it may come very suddenly at this season. I feel certain we shall have it clear for twenty-four hours, but beyond that this deponent with not."

LINEMAN KILLED BY A FALL.

Spur Failed to Stick in Pole He

Was Climbing.

Horsee A Jarrett, a lineman, in the employ of the Missouri Edison Electric Company, fell to his death from a telegraph sole in front of No. 5:11 Payton street at 29 o'clock vesterias morning. He was muloved with a company of half a dozen lem in repairing wires which had been lamaged by the late electrorm. Jarrett scended the pole at Beaumont and Dayton freets, as he had four others that morning and looked over the wires on all the runs, finding them all right.

While climbing from the last arm to the sole has thack his spar into the sole in this time the spar falled to stick and mes, for he was an experienced lineman, at this time the spar falled to stick and he fell headlong to the ground, nearly tity feet below. When his companions wached him he was unconscious. An annotative was called, but he had died before a arrived. The body was sent to the argue. Jarrett was 29 years old and merical the lived with his wife at No. 224 line street.

Of the detective bureau sall to-day that Miss Harriet T. Clegg, otherwise Mrs. William A. Busnau, formerly of Baitlmore, who was arrested last night after returning from Europe, had confessed to him that he lad been done to necessary the last one being the had been done to police headquarters to be always to be added to see the worm of classes.
